

DOCKET NO. SC13203TK

## REMARKS

In an Office Action mailed July 21, 2005, claims 1-20 were made the subject of a restriction. Claims 1-5 (Group I) were drawn to an integrated circuit having a first species of wire bond features. Claims 6-12 (Group II) were drawn to an integrated circuit having a second species of wire bond features. Claims 13-20 (Group III) were drawn to an integrated circuit and method of forming having a third species of wire bond features.

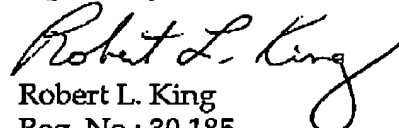

In response to the restriction, Applicants elect the claims of Group I without traverse and reserve the right to timely file a divisional application directed to the non-elected claims of Groups II and III. Accordingly, claims 6-20 are herein canceled. Additionally, new claims 21-31 which are directed to the elected Group I species are presented for consideration. The total number of claims remains no greater than twenty claims and three independent claims. Therefore, no additional fees are required as a result of this election and amendment.

Further, no change in inventorship is appropriate as a result of this election and amendment.

DOCKET NO. SC13203TK

Applicants respectfully request examination of the elected claims 1-5 and the newly presented claims 21-31 which are directed to the elected species. Should issues remain that might be subject to resolution through a telephonic interview, the Examiner is requested to telephone the undersigned at (512) 996-6839.

Respectfully submitted,
